

GREER® Pharmacy: More Than 40 Years of Experience Offering Allergy Immunotherapy (AIT) Formulation Services

AIT Prescriptions to Meet Changing Practice Demands

GREER® Pharmacy specializes in preparing all types of AIT formulations, from the simple to the complex. Our expert pharmacy staff works in a USP <797> compliant compounding facility and has direct access to the broad portfolio of allergen extracts from Stallergenes Greer. We provide this service so you can focus on patient care.

Stallergenes Greer, the only US-licensed extract manufacturer with a fully licensed compounding pharmacy

GREER Pharmacy:

- Licensed by state boards of pharmacy to dispense Rx's throughout the US*
- USP <797> compliant to help ensure safe, sterile compounded formulations
- Employs highly skilled pharmacy technicians with 40 hours of sterile compounding training to help confirm named-patient Rx integrity
- Incorporates customized barcoding software to certify correct extracts and lot numbers are used in Rx's

Why GREER® Pharmacy?

Prescriptions compounded so that you can offer precision medicine to your patients with allergies

- AIT prescriptions in customized formulations, dosages, and strengths
- Compounding capabilities for complex, multiple-antigen prescriptions
- Experienced staff available for consultation

Efficiency

- Quick turnaround
 - One week average delivery time
 - STAT Rx option for prescriptions in 24–48 hours*
- Staff support for patients
 - No mixing time needed
 - Minimal staff training required
- Help manage extract inventory and costs

Having a trusted allergy immunotherapy specialty compounding pharmacy is important to delivering the highest quality care to your patients. Whenever you're evaluating your practice's future, consider your pharmacy options. GREER® Pharmacy may be a choice. You may be facing many situations such as:

- Considering AIT prescription options
- Setting up or moving your practice
- Remodeling the office
- Facing unplanned staff turnover
- Compounding unique or difficult AIT prescriptions or needing to include extracts not normally used in your practice
